Programming Languages : C, C++, Java, Python, Javascript

Data Structures and Algorithms

Web Technologies and DBMS : HTML, CSS, ReactJS, Bootstrap, NodeJS, ExpressJS, MongoDB, SQL Plus

PERSONAL PROJECTS

Eduloop

- A captivating web development project that I personally worked on. By harnessing my skills in HTML, CSS, Bootstrap, JavaScript, jQuery, AngularJS, Node.js, Mongoose, MongoDB, and Express.js
- Including features like Login/Signup and logout by using sessions and cookies

Portfolio Website (ReactJs)

- In my frontend development project, I designed and built a captivating portfolio website using React.js, HTML, CSS, and Swiper.js for dynamic content display.
- I integrated an email-enabled feature seamlessly with Email.js, allowing visitors to connect with me effortlessly.
